DENTISTS. DENTIST-Dr. Albert N. Chappell, Gumpheim & Ochs Bldg., between C. National and First State Banks. Phone 709. 1-1-24.

CALLER Classified Ads--

The never-failing wires that place you in immediate contact with the batteries of the money-making world. They are the little pithy paragraphs of success.

They work while you sleep; never get indigestion; never get out of order; never show the white feather.

They are tireless as death and persistent as bull pups. They relieve you of worry. Make friends for you. Persuade trade to come your way, and increase your bank roll. Read them. Study them. Make use of them. You cannot lose, and profitable experience is inexpensive.

Is it a secret you need? A house? A lot? Eggs? Chickens? A stove? Or do you wish to sell this or that, or to trade something for something better suited to your requirements? If so, the classified ads is a dependable auxiliary. It will bring results. A trial will convince you.

YOUR DIET is wrong if you suffer from constipation, acid, indigestion, or fullness, and need relief for constipation, acid, indigestion, or fullness. Give you a cure or only relief. We guarantee a cure or money back. Nature's Little Co., Front Building, San Antonio, Texas. 12104

HINTS FOR THE HOUSEHOLD. The wood of mission furniture may be safely washed with warm water. After it is thoroughly dry it should be polished with a good oil.

Dry hair is an excellent cleanser for dining table flowers and wooden fabrics. Rub the applied spots harder than the rest, then brush it all off.

By slipping stiff collars into a glass or tumbler after they are heated and allowing them to thoroughly dry they can be made to keep their shape.

To relieve a rough, red, itchy, swollen throat, gargle with a solution of one part of salt to four parts of water. When it is thoroughly hot, but not scalding, it is a cup containing three ounces of finely powdered sugar.

A delicious winter salad is made with apples and oranges. Cut into small pieces one apple, two oranges, lettuce, around nuts. Serve with lettuce leaves with salad dressing.

When the cake is taken out of the oven, stand the tin on a cloth which has been wrung out of hot water. Leave it a few moments and the cake will come out of the pan without any trouble.

SOCIAL CENTERS. Peter Bedford, in discussing the back-to-the-soil movement, said: "We need social centers where our young people can be entertained, amused and instructed under the direction of cultured, clean and competent leadership, where aesthetic surroundings stir the love for the beautiful; where art charges the atmosphere with inspiration and power, and innocent amusements instruct and brighten their lives."

To hold our young people on the farm we must make farm life more attractive, as well as the business of farming more remunerative. The school house should be the social unit, properly equipped for teaching and building character, so that the home of our people can properly function around it and become supplied with the necessary elements of home thought and activity.

"BETTER FARMING SPECIAL"

The annual tour of the "Better Farming Special," the initiative unit of the Cotton Belt, is now on in East Texas, and for thirty days farmers in that section of the State will have an opportunity of attending the "school on wheels."

The efforts of the railroads to assist the farmer in improving and increasing, as well as marketing his products, are an indication of the friendly spirit now existing among industries and of the feeling of cooperation of one line of industry for another.

After all, the farmer is the source of all prosperity, and in trying to assist him in improving his condition, the railroads are making a wise investment.

RAILROAD NOTES

Many railroads are retrenching because of the contraction in freight traffic.

Theodore N. Vail, president of the American Telephone & Telegraph Company, is gradually resigning from the directorate of several railroads in order to lessen his business responsibilities.

The Chicago, St. Louis and New Orleans is the name of a proposed new road just incorporated in Alabama with headquarters in Birmingham.

The Erie Railroad has followed the lead set by the Pennsylvania and Reading in cutting down its force as a means of retrenching in operating expenses. Six thousand men have been laid off from the shops, maintenance of way and other departments.

With the bonus of \$50,000 offered by San Antonio if the line of the San Antonio, Omaha and Gulf Railroad is in operation to Corpus Christi by February 1 in danger of being lost, the railroad company is making every effort to rush the completion of the San Antonio-Corpus Christi branch.

Operations have been greatly delayed by the heavy rains and prolonged period of unfavorable weather.

One of the most expensive and at the same time effective cattle guards in use has been constructed on the Arizona Eastern in parts of Arizona. It is said that since they have been installed no animal has shown and desire to cross or even investigate them, as they consist simply of a bed of small stones, a species that grows abundantly along the line and with whose thorns cattle and horses are thoroughly familiar. It is said that horses and cattle shy of the guard as they would of a rattlesnake.

The Reading Railroad has discontinued selling half rate tickets to employees who ride daily to their work in further the employees will get no reduction except through the purchase of the regular commutation tickets.

The change has caused a storm of protest from the Reading's workers.

The roads in the south continue to make a favorable comparison with the earnings of the same period a year ago, increases still appearing on such important systems as Southern, Louisville & Nashville, Chesapeake & Ohio, Alabama Great Southern, New Orleans & Texas Pacific and Mobile & Ohio, although the gains are less pronounced than formerly.
